

To meet the unique demands of the musical performance environment, the Melody Music Chair is designed band-pitch style with a seat to back angle of 97°, allowing for maximum breathing capability.

The frame is built with strong 7/8", 16-gauge square tubing, with a 14-gauge rear seat brace. Companion **Chair Dolly DY82** is chrome plated and stacks up to 18 melody chairs!

The **Model #82MS** Music Stand is a great addition to our music furniture series. The durable desk is made with strong 22-gauge aluminum and

has rolled steel edges to protect instruments and preserve the stand. It is coated with black textured finish that resists scratches and chipping. The stand vertically adjusts to range from 24"-46" (lip to floor), using our spring loaded adjustable tube. Reading surface desk features simple tension tilt that provides smooth adjustment and strong tension at any position.

Our new and improved Music Stand Carts are designed to easily transport and store our #82MS music stands. The **#DYMS10** holds ten stands; with its lightweight design it is easy to move a fully loaded unit up and down stairs. The **#DYMS20** holds twenty stands and is easy to maneuver. Constructed with strong zinc-plated heavy duty steel for long-lasting performance. Handles are soft rubber covered for extra comfort.
