

Opening Table:

- 1) Release storage latch by lifting storage latch handle. **See Figure #1.**
- 2) Place one foot at bottom of legs. Use both hands at top of benches to push downward to floor. **See Figure #2.**
- 3) Continue pushing down until table top reaches center lock point.
- 4) With feet clear of bench supports, release center lock latch with one hand while holding onto bench with other hand. **See Figure #4.** Allow table to reach full opened position.

Folding For Storage:

- 1) Release center latch lock with one hand and begin lifting upward by grasping onto bench with other hand.
- 2) Once table is partially lifted continue lifting by pulling upward on bench supports with both hands. See Figure #2.
- 3) After table is almost closed, push benches with both hands until storage latch engages. See Figure #3.

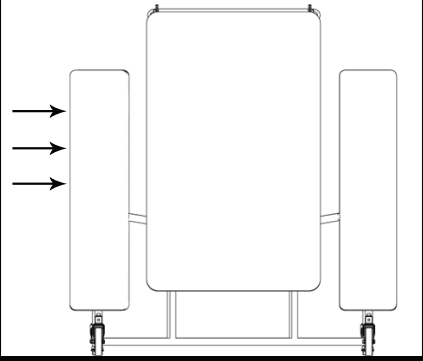

WARNING:

Table should be moved and operated by authorized adults only! Children and students should NEVER move or operate tables. Always engage storage latch to prevent tipping. Failure to follow warnings may result in serious injury or death.

When Moving Table:
Always Push from Side of Table using Both Hands.

WARNING:

To avoid tipping over, only push from side of table. DO NOT push from the table top side! Avoid rolling table over debris on the floor.
