National Public Seating and Oklahoma Sound join as one.

We are streamlining our operations to simplify order processing and invoicing for a better customer experience. Oklahoma Sound and National Public Seating will operate under one system while both maintaining their own unique brands. NPS and OS orders can be sent in on the same PO and will be billed under one accounting system.

Look for these symbols throughout the catalog:

While the entire NPS Folding Chair line meets ANSI/BIFMA standards, including a 300lb. seat drop test, most have recently passed more stringent testing for 600lbs. of static weight and 480lbs. of moving weight on the seating area.

SittingGreen® is NPS®’s environmentally responsible, eco-friendly, folding chair line which adheres to ANSI/BIFMA #7.1-2007 VOC emissions standards (criteria #1- TVOC, Formaldehyde, All Aldehydes & 4-Phenylcyclohexene), provides LEED points (option 4.5 for Furniture) for Green buildings, and provides points in the BIFMA “Level” program, criteria #1.

Our entire product line is MAS Certified Green®. For more information, visit www.mascertifiedgreen.com

CATALOG 2019
Elephant Z-Stools

NPS® announces an exciting new line of Elephant Z-Stools, providing a niche solution for the most demanding lab and art environments. The Elephant Z-Stool is aesthetically pleasing in appearance, yet uncompromisingly mammoth in quality and construction.

**2 Styles:** Regular & Backrest

**Now using heavy-duty Loctite screws**

- 14-GAUGE CHROME-PLATED ATTRACTIVE EYE TUBULAR STEEL FRAME
- REAR BRACE FOR ADDDED STRENGTH

**FAN-BACK BACKREST FOR GREATER COMFORT**

**3 Heights:** 18” • 22” • 24”

- STOOLS ARE EQUIPPED WITH AN ERGONOMIC BLOW-MOLDED SEAT PROVIDING MAXIMUM AIR COMFORT

**CONVENIENTLY STACKABLE**

- OVERSIZED CONTACT AREA TO MINIMIZE PRESSURE ON FLOOR

**Oversized glide design glides are permanently attached with embedded thermoplastic polyurethane (TPU) and provide quiet and smooth gliding on all floor types**

**U-SHAPED SLED BASE LEGS WITH SPECIALLY DESIGNED GLIDES TO BE USED ON MULTIPLE FLOORS—INCLUDING VCT TILES.**

**Nests on tabletops for easy cleanup and storage**

NPS Steel Science Tables are built to last and made for the toughest environments. 16 gauge steel frame apron and 14 gauge legs make this table virtually indestructible. The 11 gauge steel tabletop support tabs and corner brackets fuse as one with 4 heavy-duty tamper-free Loctite hex screws. The adjustable height steel legs feature a supreme dual connection. The (12 gauge) leg-base is fastened to the tabletop with 4 heavy-duty screws which gets inserted into the frame using a strong welded hangar bolt. Legs connect to the frame corner brackets with industrial-grade nylon-insert lock nuts. The legs adjust in 1" increments and are locked firmly in place with 2 K-9 external tooth lock washers and heavy duty tamper-free hex screws. All legs come standard with simple-adjust glides. Table tops come in Phenolic or Chem Res providing the ideal surface for lab experiments. NPS steel Leg Science Tables are the best choice for your industrial-grade table needs.

CATALOG 2019
Mobile Stool Units are available in rectangle, round, and elliptical shapes. Using stool tables will allow for more personal space per table vs. benches which is great for larger children and adults. Our 12’ rectangle 16 seat stool table is great for smaller children. Outfit your room with some variety by using both benches and stools on round and elliptical tables. Several combinations available.

**MTS/MTS1216 Series**

1. **Phenolic Backer**
   Adds sanitary protection and power washable.

2. **Frame**
   14-gauge aprons and steel frame.

3. **High Impact Reinforced Stools**
   Massive ribs and steel washer inside for support; secured with specialty hardware which will hold up for years and years of hard use.

4. **Safety Feature**
   “No-trip” caster lift-off feature: casters lift off floor in open position to prevent table from moving. Lift-off does not extend past the bench.

5. **Glides**
   Tamper-free, non-marring, nylon steel-insert glides and tube closures.

6. **Anti-bacterial**
   Protect edge prevents food from being trapped between the laminate and edge. Available on all tables.

7. **Automatic Down Lock**
   Self-leveling automatic down lock ensures engagement every time table is fully opened.

8. **Cleaning and Maintenance**
   Locks table partially opened for easy floor cleaning. Manual release from both sides of table to fold.

New under table hat support 1000 lbs. weight capacity

Built with "Tamper-free" Hardware

Our Mobile Convertible Bench Units are perfect for a variety of uses. These multipurpose units easily set up in seconds. They can be used as a comfortable bench with a back or a table with a bench. The change is easy and fast. They can also be combined to make one large table using our included ganging devices. Tables and benches fold and nest beautifully for perfect storage.
Today’s cafeterias have become multi-purpose spaces which require furniture that is mobile and multi-functional. NPS’s ToGo Booth System is ideal for such an environment. Built with 14 gauge steel, 2” tube legs, and double ball bearing non-marring 3” casters, the ToGo provides the ultimate in strength and mobility. It’s simple to reconfigure for multi-purpose use. The ToGo benches feature fixed high backs with a slight 12-degree pitch providing the perfect contour for comfortable seating. Rubber Grip-Tight glides automatically engage with the floor when opened along with locking casters to keep your seating arrangement nicely in place. ToGo Tables come in a choice of MDF or particleboard core with various laminate color options. Tables open and lock automatically and are easily released with a pull of a handle. The ToGo Bench and Table top flip up and nest for optimal storage. Both are offered in 48” or 60” widths and 24” or 30” depths providing comfortable seating for all sizes.

Use in multi-purpose environments, cafeterias, and classrooms.

NPS’s Mobile Shape Solid Top EasyFold tables are the perfect multi-purpose table. Each table model design is rigorously tested in our NPS engineering lab to guarantee years of dependable use. All NPS mobile folding tables are assembled in the USA and ANSI/BIFMA/MAS Green certified. All NPS mobile folding tables are backed with a standard 15 year warranty.

**1. Table Top**
One-piece top is more flexible without having a gap or seam in the middle of surface.

**2. Anti-bacterial**
Protect edge prevents food from being trapped between the laminate and edge. Available on all tables.

**3. Frame**
14-gauge steel understructure and legs, in textured powder coated black. Optional chrome legs available.

**4. Safety Feature**
“No-trip” caster lift-off feature: casters lift off floor in open position to prevent table from moving.

**5. Casters**
4" #275/each rated double ball bearing non-marking swivel casters allow easy movement.

**6. Glides**
Glass-filled nylon, high-impact non-marring glides.

Gas spring rated to 100,000 cycles balances open-fold operation – simple for one person operation.

**NEW FOR 2019**

www.nationalpublicseating.com | National Public Seating®
Café Time Table II
The New Café Time Table II from NPS combines modern design with superior strength and functionality. Our high pressure laminate and whiteboard tabletops are easy to clean and will resist scratches. Available in both round and square shapes in 24”, 30” & 36” size tops. Tables adjust from 30” to 42” using a smooth and easy to adjust pneumatic lever. The heavy-duty 13 gauge steel column and ½ inch steel base is securely fastened onto 3” Heavy-Duty Polyurethane non-marring swivel casters, providing a secure base which safely rolls to your desired location. The table top folds and locks into compact storage. ANSI/BIFMA certified meeting all TSCA title VI requirements. Turn your Cafeteria into a Café dining experience.

NPS® is excited to announce an expansion to its popular performing arts line of stages to include 4’x4’ sized platforms that are height adjustable from 16-24” or 24-32”, and roll on caster wheels. Available in both hardboard and a variety of carpeted surfaces, these new lighter weight portable platform pieces are the perfect solution for when one person will be doing the setup. Roll to desired location on built in caster wheels and gang together multiple platforms to create large or small stages of your choosing.

**The perfect solution for when one person will be doing the setup.**

Simply open and lock legs in place while stage is on optional dolly, select desired leg height and lower to floor in one motion, by one person!

The Conversation Lectern

Built with durable 12-gauge black powder coated steel frame, this sleek mobile lectern will bring a new dimension for your presentation in the most upscale venues. This unit features a lectern surface that is made of black laminate on an MDF core. Recognizing that each presentation venue has its own character, Oklahoma Sound® is pleased to provide your unit with a choice of two modesty panel options. Simply install the look you desire. Use the sleek polycarbonate panel for one setting and simply remove and replace with acacia laminate panel for a second setting. The lectern top can be placed in two positions: flat or slanted. The unit is outfitted with a retractable keyboard for use with a laptop. Ready to assemble.
Protecting the environment is one of the most important factors affecting the future of the planet. Most people are now aware of the necessity of preserving and protecting nature in order to ensure our well-being and that of our children. Pollution, especially that related to the over-consumption of raw materials, has reached alarming levels due to our current lifestyle. That is why at National Public Seating®, we are constantly striving to minimize the consequences of our activities.

At National Public Seating®, the quality of our products and the protection of the environment go hand in hand. As a consumer of raw material, we are committed to the use of pre and post consumer waste (recycled material), while preserving the high quality standards of our products.

ENVIROMENTAL STATEMENT

EXAMPLES OF THIS INCLUDE:

- **STEEL** – All of the steel for our products contain 30-40% of post-consumer waste (recycled).
- **CORRUGATED CONTAINERS** – Are made of recycled fiber. 100% total recycled content and 90% post consumer content minimum.
- **PLASTIC** – Our plastic products contain up to 35% of pre-consumer waste.
- **WOOD** – 100% of wood used for our products comes from non-boreal forests.
- **POWDER COATING VS. LIQUID FINISHES** – Our products are powder coated and are highly protective to our environment. While liquid finishes contain solvents which have pollutants known as volatile organic compounds (VOCs), powder coating contains no solvents and releases negligible amounts, if any, of VOCs into the atmosphere. In addition, most powder coating overspray that does not adhere to the part is retrieved and reused, virtually eliminating the waste commonly found in liquid finishing processes.
- **ENERGY** – During November 2008, National Public Seating®, completed a retrofit of all its lighting (over 800 fixtures), to eco-friendly units, saving 135,586 kWh annually. This reduction in energy consumption has an environmental impact equivalent to removing 20 cars from the road, 84 tons of greenhouse gas (CO2) and saving 198 barrels of oil annually!
- **AIR EMMISIONS** – Our Folding Chairs are manufactured within ANSI BIFMA X7.1 2007 VOC Air Emission guidelines; Criteria #1 – TVOC, Formaldehyde, All Aldehydes & 4-Phenylcyclohexene.
- **MAS CERTIFIED GREEN** – The entire NPS® Product Line is now MAS Certified Green™, a nationally recognized registered trademark delineating low VOC emitting products in the marketplace so that purchasers and specifiers of those products know that they can earn credits in sustainability programs like LEED, BIFMA’s Level, and California CHP program.
- **SOLAR ENERGY** – As the industry leader in institutional-grade furniture, including portable folding furniture for lunch rooms, training rooms, etc., & furniture for worship halls, science labs, music programs, performing arts, cafeterias & others, NPS® continues to trailblaze in setting the standard for environmental stewardship. In addition to minimizing its eco footprint in the areas of raw material sourcing, energy consumption & air emissions, NPS® is proud to announce a major solar panel installation on the roof of its 200,000 square foot factory facility in its corporate headquarters in Clifton, NJ, completed Summer 2011. Via the installation of a 240KW solar PV system on its roof, we will offset most of the local utility’s need to burn oil and gas for electrical production in the public grid and therefore reduce greenhouse gas emissions into the atmosphere. Since we will be generating 80% of the electricity that we use with this system, we have cut our carbon footprint significantly.
WARRANTY INFORMATION

National Public Seating® offers the original user a warranty against all manufacturing defects in material and workmanship from date of purchase for ten years*. If defective, NPS will, at its option, repair or replace the defective product. This warranty does not apply to damage resulting from misuse, abuse or neglect. Authorization for return and / or repairs is required by contacting your dealer. This warranty gives you specific rights, and you may also have other rights which vary by state.

Orders are accepted under the express agreement that under no circumstances will seller be liable for any incidental or consequential damages, or for any other loss, damage or expense of any kind, including loss of profits, arising in connection with the order or with the use or inability to use seller’s products furnished under the order. Seller’s maximum liability shall not exceed and buyer’s remedy is limited to either (i) repair or replacement of the defective part or product, or at seller’s option (ii) return of the product and refund of the purchase price. Such remedy shall be the buyer’s entire and exclusive remedy.
