

READY TO ASSEMBLE

# The Conversation Lectern MODEL #CVS

## The new and modern Conversation Lectern is the talk of the town!

Built with durable 12-gauge black powder coated steel frame, this sleek mobile lectern will bring a new dimension for your presentation in the most upscale venues.

This unit features a lectern surface that is made of black laminate on an MDF core.

Recognizing that each presentation venue has its own character, Oklahoma Sound® is pleased to provide your unit with a choice of two modesty panel options. Simply install the look you desire.

Use the sleek polycarbonate panel for one setting and simply remove and replace with acacia laminate panel for a second setting.

The lectern top can be placed in two positions flat or slanted.

The unit is outfitted with a retractable keyboard for use with a laptop.

Ready to Assemble.
